FAQ's

SHIPPING & PACKAGING

All orders are shipped in plug trays, which are packaged and completely sealed in cardboard boxes. These cardboard boxes are then placed into our insulated heavy-duty shipping containers, which protect against any possible damages during shipping.

Shipping arrangements are tailored to each specific order and the delivery location. We have in-house shipping capabilities to serve our local BC market and into Alberta, however, anything further will be subject to the terms of our shipping partners.

RETURNS & WARRANTIES

Due to the nature of our industry, it is very difficult to accept returns. To establish confidence in our clients we implement a strict quality control process, which records SOP's for minimizing risk of contaminants, as well as enforces frequent screening & testing activities to assure our plants are healthy and virus free.

With that being said, customer satisfaction is of utmost importance to us, so if you are unhappy with your order for any reason simply give us a call and we will do our absolute best to make things right.
